See Forum Rules (below) for more information about what codes you are allowed to use in your posts.

Smilies selection panel showing various smiley icons and a 'Showing: 30 of 62 [Get More]' indicator.

[QUOTE] [SIZE=1] Originally posted by CivPatriot [/SIZE] flameflash, i've been wondering the same thing my self about these huge docks that people seem to have. i just put the apps i use all the time on my dock, have my app folder on it and just right click on the app folder and find what i need(either that or the short cut) so i see little need for these huge docks(but i understand that somepeople use more programs than i do, one reason why expose is not as big of a thing to me as it is to some people), but huge docks baffle me anyway.
